Part 2: Certification and Incorporation									

I hereby certify that the information contained in this application is, to the best of my knowledge, correct and that the organization named above has authorized me as its representative to obligate this organization in a legally binding contractual agreement. I further certify that any ensuing program and activity will be conducted in accordance with all applicable federal and state laws and regulations, application guidelines and instructions, the general provisions and assurances, debarment and suspension certification, lobbying certification requirements, special provisions and assurances, and the schedules attached as applicable. It is understood by the applicant that this application constitutes an offer and, if accepted by the Agency or renegotiated to acceptance, will form a binding agreement.

Part 3: Schedules Required for New or Amended Applications	
County-district number or vendor ID: 015907-049	Amendment # (for amendments only):
Schedule #1—General Information	<u>n</u> (cont.)

An X in the "New" column indicates a required schedule that must be submitted as part of any new application. The applicant must mark the "New" checkbox for each additional schedule submitted to complete the application. For amended applications, the applicant must mark the "Amended" checkbox for each schedule being submitted as part of the amendment.

Schedule	Schedule Name	Applicati	Application Type	
#	Schedule Wante	New	Amended	
1	General Information		$\boxtimes$	
2	Required Attachments and Provisions and Assurances		N/A	
4	Request for Amendment	N/A	$\boxtimes$	
5	Program Executive Summary			
6	Program Budget Summary			
7	Payroll Costs (6100) – SEE NOTE	See		
8	Professional and Contracted Services (6200) – SEE NOTE	Important		
9	Supplies and Materials (6300) - SEE NOTE	Note for		
10	Other Operating Costs (6400) - SEE NOTE	Competitive		
11	Capital Outlay (6600/15XX) - SEE NOTE	Grants*		
12	Demographics and Participants to Be Served with Grant Funds			
13	Needs Assessment

County-district number or vendor ID: 0	15907-049	Amendment # (for amendments only):
Part 3: Program-Specific Provisions	and Assurances	

$\boxtimes$	I certify my acceptance of and compliance with all program-specific provisions and assurances listed below.
#	Provision/Assurance
1.	The applicant provides assurance that program funds will supplement (increase the level of service), and not supplant (replace) state mandates, State Board of Education rules, and activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services and activities to be funded from this grant will be supplementary to existing services and activities and will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
2.	The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights and Privacy Act (FERPA) from general release to the public.
3.	The applicant provides assurance that, if it receives these program funds to serve one or more campuses, it will ensure each campus receives all of the state and local funds it would have received in the absence of these program funds. As a result, an LEA must provide the TTIPS grantee campus all of the non-Federal funds the campus would have received were it not a TTIPS grantee campus, and these program funds must supplement the amount of those non-Federal funds. Note, however, that the campus does not need to demonstrate that these program funds are used only for activities that supplement those activities the campus would otherwise provide with non-Federal funds.
4,	The applicant provides assurance that the education program described below is unique to the applicant. An applicant that plagiarizes or copies any other application does not meet this standard and will be disqualified.
5.	<ol> <li>The LEA provides assurance that it will meet the following federal requirements:         <ol> <li>Use its TTIPS Grant to fully and effectively implement an intervention package in each school that the LEA commits to serve, consistent with the final requirements.</li> <li>Establish annual goals for student achievement on the State's assessments in both reading/language arts and mathematics, measure progress on the leading indicators in section III of the final requirements and establish goals to hold schools receiving school improvement funds accountable.</li> <li>If it implements a restart model in a school, hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements, and it include these terms in its contract or provisions</li> </ol> </li> <li>Monitor and evaluate the actions a school has taken, as outlined in the approved TTIPS application, to recruit, select and provide oversight to external providers to ensure their quality.</li> <li>Monitor and evaluate the actions schools have taken, as outlined in the approved TTIPS application, to sustain the reforms after the funding period ends and that it will provide technical assistance to schools to sustain progress in the absence of TTIPS funding.</li> <li>Report school-level data to the SEA required under section III of the final requirements, and included in the Program Guidelines of this RFA.</li> </ol>
6.	The LEA provides assurance that it will participate in any evaluation of the grant conducted by the U.S. Department of Education, including its contractors, or the Texas Education Agency, including its contractors.
7.	The LEA/campus provides assurance that if it selects to implement the <a href="mailto:transformation">transformation model</a> , the campus will meet all of the following federal requirements:  1. Develop and increase teacher and school leader effectiveness.  (A) Replace the principal who led the school prior to commencement of the transformation model;  (B) Use rigorous, transparent, and equitable evaluation systems for teachers and principals that-  i. Take into account data on *student* growth* as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and  ii. Uses the definition of *student* growth* as: the change in achievement for an individual student between two or more points in time. For grades in which the State administers summative assessments in reading/ language arts and mathematics, student growth data must be based on a student's score on the State's assessment under section 1111(b)(3) of the ESEA. A State may also include other measures that are rigorous and comparable

across classrooms.

- iii. Are designed and developed with teacher and principal involvement:
- (C) Identify and reward school leaders, teachers, and other staff who, in implementing this model, have increased student achievement and high school graduation rates and identify and remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so;
- (D) Provide staff ongoing, high-quality, job-embedded professional development (e.g., regarding subject-specific pedagogy, instruction that reflects a deeper understanding of the community served by the school, or differentiated instruction) that is aligned with the school's comprehensive instructional program and designed with school staff to ensure they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies; and
- (E) Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in a transformation school.
- 2. Deliver comprehensive instructional reform strategies.
  - (A) Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next as well as aligned with State academic standards; and
  - (B) Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students.
- 3. Increase learning time and creating community-oriented schools.
  - (A) Establish schedules and strategies that provide increased learning time; using a longer day, week or year; and by addressing each of the following areas:
    - i. Additional time for instruction in core academic subjects including English, reading or language arts, mathematics, science, foreign languages, civics and government, economics. arts, history, and geography.
    - ii. Additional time for instruction in other subjects and enrichment activities that contribute to a well-rounded education, including, for example, physical education, service learning, and experiential and work based learning opportunities that are provided by partnering, as appropriate, with other organizations.
    - iii. Additional time for teachers to collaborate, plan, and engage in professional development within and across grades and content areas.
  - (B) Provide ongoing mechanisms for family and community engagement.
- 4. Providing operational flexibility and sustained support.
  - (A) Give the school sufficient operational flexibility (such as staffing, calendars/time, and budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates; and
  - (B) Ensure that the school receives ongoing, intensive technical assistance and related support from the LEA, the SEA, or a designated external lead partner organization (such as a school turnaround organization or an EMO).

The LEA/campus provides assurance that if it selects to implement the Texas state-design model, the campus will deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an Early College High School (ECHS). In doing so, the LEA/campus will implement the following:

8.

- 1. Pursue designation as a Texas Early College High School, with a target of earning TEA ECHS designation and full-operation as an ECHS, no later than the start of the second year of the TTIPS grant implementation period; Fall 2017.
- 2. Create an innovative high school that enables students to graduate with a high school diploma and an associate degree; or high school diploma and 60 college credit hours toward a baccalaureate degree.
- Provide college credit earned through the high school years for all students at no cost; including tuition. fees and textbook costs.

建设的基础。	For TEA U	Jse Only
Changes on this page have been of	onfirmed with:	On this date:
Via telephone/fax/email (circle as a	ppropriate)	By TEA staff person:

- 4. Develop and increase teacher and school leader effectiveness through use of the Texas Teacher Evaluation and Support System and Texas Principal Evaluation and Support System.
- 5. While implementing for all students, the program specifically identifies students for more intensive supports. These students include those at-risk for dropping out of school, as defined in Texas statedefined criteria in TEC §29.081; and students historically underrepresented in college courses. In developing and providing the more intensive supports, , the LEA/campus will have:
  - (A) Data to identify the population at risk of dropping out of school;
  - (B) Quantitative and qualitative data to identify students least likely to attend college/those historically underrepresented in college courses;
  - (C) Early College brochures in all languages relevant to the school community;
  - (D) Written communication plan for relevant target audiences: parents, community members, school board.

## Adapted from Texas Early College High School Blueprint, Benchmark 1.

- 6. By the start of TTIPS full-implementation (Fall 2016), the LEA/campus will have key partnerships in place that will enable success as an Early College High School. These partnerships are marked by signed Memoranda of Understanding with current signature each year of implementation. Key partnerships include:
  - (A) Partnership between the school district and an institute of higher education (IHE) that:
    - Defines the partnership between the LEA/campus and the IHE and addresses topics including, but not limited to: the ECHS location, the allocation of costs for tuition, fees, textbooks, and student transportation:
    - ii. Defines an active partnership between the school district(s) and the IHE(s), which shall include joint decision-making procedures that allow for the planning and implementation of a coherent program across institutions; and
    - iii. Includes provisions and processes for collecting, sharing, and reviewing program and student data to assess the progress of the ECHS.
  - (B) Contract/partner with the Texas Early College High School Technical Assistance provider for access to training, coaching, and technical assistance through to earning designation. Once designated, will continue work with the technical assistance provider as is required as a condition of TEA designation.
  - (C) Contract/partner with a Texas Early College High School demonstration site. Demonstration sites are identified by TEA each year from 2015-2016 forward. Terms of the contract/partnership shall be designed for demonstration site/ model program for the TTIPS LEA/campus by TEA in early 2015-2016

## Adapted from Texas Early College High School Blueprint, Benchmark 2.

- 7. By the start of TTIPS planning/pre-implementation year (January 1, 2016), the LEA and key partners must have developed and be maintaining a leadership team focused on P-16 Leadership Initiatives that meets regularly to address issues of the ECHS design and sustainability. At minimum, the membership shall include the campus principal and individuals with decision-making authority from both the LEA and IHE.

  Adapted from Texas Early College High School Blueprint, Benchmark 3.
- 8. Provide a curriculum that offers a rigorous and accelerated course of study, in both college-credit bearing courses and preparatory/college readiness courses. Additionally, the program must provide students with the academic, emotional and social supports necessary to be successful in the rigorous course of study. The curriculum and supports must meet the following:
  - (A) Beginning in TTIPS first year of full-implementation (Fall 2016), have curriculum in place that allows all students to graduate high school with at least six semester credit hours toward a baccalaureate

ForTEA	Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

degree.

- (B) By TTIPS second year of full-implementation (Fall 2017), have curriculum in place that enables students to receive a high school diploma and complete the Texas Higher Education Coordinating Board's (THECB) core curriculum (as defined by TAC §4.28); or an associate's degree; or at least 60 credits toward a baccalaureate degree during grades 9-12.
- (C) Possess a written course of study plan showing how students will progress as an ECHS graduate. The plan must provide pathway to a baccalaureate degree and follow the courses and fields of study listed in the THECB Lower Division Academic Course Guide Manual.
- (D) Beginning in the TTIPS first year of full-implementation, the campus will provide academic supports to the students in the form of: extended learning time sessions for tutoring, advisory and/or college readiness support time built into the program of study, and a college-readiness mentorship program.
- (E) Beginning in the TTIPS planning/pre-implementation year, the campus will provide social and emotional supports to the students, including: connections to social services, parent outreach and involvement opportunities.
- (F) Beginning in the TTIPS first year of full-implementation, the campus will provide college awareness and access services to students and families, including: college application assistance, financial aid counseling, college and career counseling.

Adapted from Texas Early College High School Blueprint, Benchmark 4.

By the TTIPS first year of full-implementation, the campus shall provide for the administration of the Texas Success Initiative (TSI) college placement exam to students in order to assess college readiness, design individual instruction plans, and enable students to begin college courses based on their performance. Fees associated with assessment administrations must be waived/covered for all students. Adapted from Texas Early College High School Blueprint, Benchmark 5.

- 9. By the start of the TTIPS second year of full-implementation (Fall 2017), the campus will provide a full-day program at an autonomous high school; operating with:
  - (A) An IHE liaison with decision-making authority who interacts directly and frequently with the campus staff and administrators;
  - (B) A highly qualified teaching staff possessing appropriate level of certification, training and ongoing supports to teach college-bearing courses to high school students.
  - (C) Clear opportunities for students to have regular use (at least six times per school year) of college academic facilities, regardless of early college school site.
  - (D) Opportunities for high school faculty and staff to receive regular training and support; in collaboration with the IHE faculty and staff.

Adapted from Texas Early College High School Blueprint, Benchmark 6.

The Texas concept for an Early College High School is fully described in the following resources:

- Texas Education Agency, Early College High School program
- Texas Education Code §29.908
- Texas Administrative Code §4.161
- 19 Texas Administrative Code Chapter 102 Educational Programs Subchapter GG: <u>Commissioner's Rules</u> Concerning Early College Education Program

The applicant provides assurances that the LEA/campus administering the state-design model will submit an Early College High School Readiness Assessment as a supplement to the TTIPS required Implementation Readiness Portfolio. Assessment forms will be provided by the TEA TTIPS program office.

The applicant provides assurances that the LEA/campus administering the state-design model will apply for Texas Early College High School designation, no later than applications are available for schools that wish to be designated for the 2017-2018 school year.

9. The LEA/campus provides assurance that if it selects to implement the Early Learning Intervention Model in an

	Fo	r TEA Use Only
Changes on this page ha	ave been confirmed with:	On this date:
Via telephone/fax/email	(circle as appropriate)	By TEA staff person:

elementary school, the campus will implement in accordance with the following federal requirements:

- 1. Offer full-day kindergarten.
- 2. Establish or expand a high-quality preschool program.
  - A high-quality program includes structural elements that are evidence-based and nationally recognized as important for ensuring quality. Implementation under this grant program must meet the requirements of a high-quality preschool program, as defined in the U.S. Department of Education's Preschool Development Grants program. Under this definition, program must have:
    - (A) High staff qualifications, including a teacher with a bachelor's degree in early childhood education or a bachelor's degree in any field with a state-approved alternative pathway;
    - (B) High-quality professional development for all staff;
    - (C) A child-to-instructional staff ratio of no more than 10 to 1;
    - (D) A class size of no more than 20 with, at a minimum, one teacher with high staff qualifications;
    - (E) A full-day program;
    - (F) Inclusion of children with disabilities to ensure access to and full participation in all opportunities;
    - (G) Developmentally appropriate, culturally and linguistically responsive curricula, and learning environments that are aligned with the state early learning and development standards for at least the year prior to kindergarten entry;
    - (H) Individualized accommodations and supports so that all children can access and participate fully in learning activities;
    - (I) Instructional staff salaries that are comparable to the salaries of local K-12 instructional staff;
    - (J) Program evaluation to ensure continuous improvement;
    - (K) On-site or accessible comprehensive services for children and community partnerships that promote families' access to services that support their children's learning and development;
    - (L) Evidence-based health and safety standards.
- 3. The LEA has assessed the benefits of contracting with a community-based provider to provide the high-quality preschool programs for students enrolled in an elementary school implementing the model, either at the TTIPS campus or through an existing high-quality child care or Head Start program within the LEA or nearby community. The LEA is aware that the preschool is not required to be physically located in the eligible elementary school. However, students must be enrolled in the grantee school that is implementing the early learning model to receive preschool services funded through the grant program.
- 4. Provide educators, including preschool teachers, time for joint planning across grade levels.
- 5. Replace the principal who led the school prior to the commencement of the early learning model.
- 6. Use rigorous, transparent, and equitable evaluation systems for teachers and principals that--
  - (A) Take into account data on student growth as a significant factor as well as other factors such as multiple observation-based assessments of performance and ongoing collections of professional practice reflective of student achievement and increased high school graduation rates; and
  - (B) Are designed and developed with teacher and principal involvement;
- Identify and reward school leaders, teachers, and other staff who, in implementing this model, have
  increased student achievement and high school graduation rates and identify and remove those who,
  after ample opportunities have been provided for them to improve their professional practice, have not
  done so.
- 8. Implement strategies such as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain high quality

	For TEA	Use Only
Changes on this page ha	ave been confirmed with:	On this date:
Via telephone/fax/email	(circle as appropriate)	By TEA staff person:

educators.

- 9. Use data to identify and implement an instructional program that is:
  - (A) Research-based;
  - (B) Developmentally appropriate;
  - (C) Vertically aligned from one grade to the next as well as aligned with State academic standards:
  - (D) Promotes academic content across a range of development: math and science, literacy and language, socio-emotional skills, self-regulation, and executive functions.
- 10. Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students.
- 11. Provide staff with ongoing, high-quality, job-embedded professional development such as coaching and mentoring that is:
  - (A) Aligned with the school's comprehensive instructional program
  - (B) Designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to implement school reform strategies.
- 12. Operate in compliance with all regulations in the Texas Pre-Kindergarten Guidelines (PKG).
- 13. Utilize Texas State Board of Education approved pre-kindergarten instructional materials.
- 14. Enroll in the Children's Learning Institute (CLI), <u>CLI Engage</u> platform, and utilize the <u>Texas School</u> <u>Readyl</u> child progress monitoring assessments with pre-kindergarten students.

If selecting the Early Learning Intervention model and receiving these grant funds to support the implementation, the full-day kindergarten and full-day pre-kindergarten programs must be offered free of charge to all enrolled students.

The LEA/campus provides assurance that if it selects to implement the <u>turnaround model</u>, the campus will meet all of the following federal requirements:

- Replace the principal and grant the new principal sufficient operational flexibility (including in staffing, calendars/time, and budgeting) to fully implement a comprehensive approach to substantially improve student achievement outcomes and increase high school graduation rates;
- 2. Use locally adopted competencies to measure the effectiveness of staff who can work within the turnaround environment to meet the needs of students;
  - (A) Screen all existing staff and rehire no more than 50 percent; and
  - (B) Select new staff

10.

- 3. Implement such strategies as financial incentives, increased opportunities for promotion and career growth, and more flexible work conditions that are designed to recruit, place, and retain staff with the skills necessary to meet the needs of the students in the turnaround school;
- 4. Provide staff ongoing, high-quality, job-embedded professional development that is aligned with the school's comprehensive instructional program and designed with school staff to ensure that they are equipped to facilitate effective teaching and learning and have the capacity to successfully implement school reform strategies;
- Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new turnaround office in the LEA or SEA, hire a turnaround leader who reports directly to the Superintendent or Chief Academic Officer, or enter into a multi-year contract with the LEA or SEA to obtain added flexibility in exchange for greater accountability;

For TE	\ Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

11.

- 6. Use data to identify and implement an instructional program that is research-based and vertically aligned from one grade to the next, as well as aligned with State academic standards;
- 7. Promote the continuous use of student data (such as from formative, interim, and summative assessments) to inform and differentiate instruction in order to meet the academic needs of individual students;
- 8. Establish schedules and strategies that provide increased learning time; using a longer day, week or year; and by addressing each of the following areas:
  - (A) Additional time for instruction in core academic subjects including English, reading or language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography.
  - (B) Additional time for instruction in other subjects and enrichment activities that contribute to a well-rounded education, including, for example, physical education, service learning, and experiential and work based learning opportunities that are provided by partnering, as appropriate, with other organizations.
  - (C) Additional time for teachers to collaborate, plan, and engage in professional development within and across grades and content areas.
- 9. Provide appropriate social-emotional and community-oriented services and supports for students.

If selecting the turnaround model, the applicant agrees to the participation of the campus principal or principal candidates in a formative assessment of their turnaround leadership capacity.

The LEA/campus provides assurance that if it selects to implement the **Whole-School Reform model**, the campus will meet all of the following federal requirements:

- 1. Implement an evidence-based whole-school reform in partnership with a model developer.
  - (A) The model developer is an entity or individual that either has proprietary rights to the model or an entity or individual that has a demonstrated record of success in implementing wholeschool reform models in one or more low-achieving school.
- 2. The whole-school reform model selected must be supported by at least one study that demonstrates its efficacy. The federal SIG office has approved specific whole-school reform models that meet this evidence standard; published here: http://www2.ed.gov/programs/sif/sigevidencebased/index.html These approved models are supported by:
  - (A) A study of efficacy that meets What Works Clearinghouse evidence standards.
  - (B) A study that shows statistically significant favorable impact on a student academic achievement or attainment outcome.
  - (C) A study which used a large sample and multi-site sampling.
- 3. Evidence supporting the efficacy of the whole-school model selected is based on an implementation with a sample population or setting similar to the population or setting of the school being served. The whole-school model must be designed to improve academic achievement or attainment.
- 4. The whole-school model must implement the model for all students in the school.
- 5. The whole-school model must address at a minimum and in a comprehensive and in a coordinated manner:
  - (A) School leadership
  - (B) Teaching and learning in at least one full academic content area
  - (C) Non-academic supports for students
  - (D) Family and community engagement
- The LEA/campus provides assurance that if it selects to implement the <u>restart model</u>, the campus will meet all of the following federal requirements:

Part 1: Submitting an Amendment	
County-district number or vendor ID: 015907-049	Amendment # (for amendments only):
Schedule #4—Request for Ame	<u>ndment</u>

This schedule is used to amend a grant application that has been approved by TEA and issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment.

An amendment may be submitted by mail **or** by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Division of Grants Administration, Texas Education Agency, 1701 N. Congress Ave., Austin, TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-7915.

The last day to submit an amendment to TEA is listed on the <u>TEA Grant Opportunities</u> page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review and approval by TEA.

## Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend" guidance posted in the Amendment Submission Guidance section of the Division of Grants Administration Administering a Grant page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 and Part 4 of this schedule.

### Schedule #5—Program Executive Summary

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver.

Please focus the response on the qualities that enable this specific campus and district team to achieve foundational pursuits of a school improvement undertaking: **accelerated achievement**, **system transformation**, and **sustained** 

Summarize the district commitments to achieve foundational elements through the district's:

- · Vision and focus for school reform
- Sense of urgent need for change
- High expectations for results
- Operational flexibilities that will be afforded the campus in a reform effort

Summarize the district and campus capacity and ability to benefit from this grant in terms of:

- Organizational structures
- Existing capacity and resources
- Communication structures

Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

The San Antonio Independent School District (SAISD), where this project will be situated, serves the Downtown, Midtown, and inner city areas of San Antonio. The District currently serves approximately 54,000 students. Irving Middle School, the project's location, is an internal charter for music campus which serves 879 students in grades 6-8. The campus is in its 2nd year of being designated "Improvement Required" under the current State of Texas Accountability Ratings. The urgent need for change has been addressed with a newly hired principal and the campus' participation in the University of Virginia District Turnaround Leadership Initiative (DTLI). Additionally, the expectation for Irving is to redefine excellence by going beyond minimum state requirements by being designated with the highest accountability rating available. This expectation is reinforced by the District's newly created 5-year plan, implemented by the newly appointed Superintendent of Schools Mr. Pedro Martinez which stresses the District's expectation to have all campuses exceeding the State of Texas' standards at minimum and striving to exceed the National standards in preparation for the proposed school accountability for 2017-2018 when schools and districts will be assigned a letter grade (84th Legislative session: HB 2804).

The top goal is to increase the percent of campuses rated high performing by: (a) increasing performance/ growth in Reading and Math; (b) increasing the passing rate of prior year failers; and (c) increasing performance at the highest level on State assessments (Advanced Level III). Specifically, Irving will improve its current rating of "F" to a rating of "A-B" by 2018-2019 by increasing performance in Reading from 63% to 85% and Math from 62% to 85% and increasing the Advanced Level III passage rate in Reading from 5% to 25% and Math from 6% to 25%.

The vision and focus for transforming Irving MS was developed through a rigorous Comprehensive Needs Assessment (CNA) process which identified the root causes of the campus' problems as: 1.) lack of instructional support for campus and for teachers new to the content area, 2.) no action plan and structure for the writing process, 3.) lack of teacher accountability in monitoring attendance, 4.) and inconsistent and low teacher expectations of the district code of conduct as the root causes of Irving's needs. Accordingly, the District has committed campus personnel support in the form of a reading coach and the campus is receiving training on implementing the Positive Behaviors and Interventions Strategies to address the discipline issues. However, in order to accelerate Irving's academic achievement, SAISD is applying and planning for the implementation of a TTIPS-funded campus transformation.

Currently, 50% of Irving MS students did not Meet Standard of Index 1-Student Achievement on the 2015 State of Texas Assessments of Academic Readiness (STAAR) exam. Students not meeting standard on Index 1 face dire consequences as it leads to an academic career focused on remediation instead of acceleration. The TTIPS project will provide content specialists, job-embedded professional development, and increased learning time to provide teachers with the time and support needed to accelerate their goals.

The TTIPS project will transform campus systems by creating and sustaining a professional learning community on campus which will increase communication, create a culture of shared responsibility, and eliminate "silos" preventing the campus from reaching goals. Content specialists will deliver professional development that will enable the campus to implement a system of collective inquiry, collaboration, and data-driven instruction to optimize results for students. Professional learning communities operate under the assumption that the key to improved learning for students is

# Schedule #5—Program Executive Summary (cont.)

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

continuous job-embedded learning for educators. SAISD will sustain the campus' transformation by consistently and systematically monitoring successful interventions. An external evaluator will provide formative evaluation feedback to district and campus leadership, project management, partners, and parents throughout the year. Program implementation and impact data will be tabulated, analyzed and summarized in an end-of-year report. This report will summarize the project's activities and results over the project period and will include information about the participants served, project staff, services provided and educational progress of students. In addition to assessing program implementation and impact on program participants, the document will incorporate recommendations for enhancing future replication. Allocating the resources needed to sustain the reform will be objective and informed.

Evidence-based interventions addressing each of the campus' needs identified in the CNA process were designed within the Transformation Framework recommended by the Texas Education Agency. Interventions included: 1.) changing campus leadership to lead the project and corresponding campus transformation, 2.) transitioning to a new teacher and principal evaluation system which focuses on student growth as an indicator of performance, 3.) delivering data-driven instruction by consistently using multiple assessments to track student comprehension, 4.) supporting teachers with high quality, job-embedded professional development needed to build capacity among teacher of all grade levels and content areas, 5.) increasing the learning time of students by offering one hour of instruction in all core contents prior to the start of school each day to effectively lengthen the school day, 6.) engaging Irving's parents, families, and community by recruiting them as volunteers, 7.) designing a reward system to identify, reward, and retain high performing teachers by giving them the autonomous selection of professional development based on the needs of each individual teacher.

Eliminating barriers to achieving these goals will be accomplished by providing operational flexibility and sustained support through staffing. The content specialists hired through the grant offer teacher support above and beyond what is traditionally offered due to limited funding resources. Additionally, Year 2 of the project will review the campus' current in-district charter to consider additional operational flexibility through requested waivers in the areas of staffing, scheduling, and budgeting.

Irving has committed and experienced campus leadership dedicated to seeing the project succeed. Additionally, the campus is supported by the District which has committed significant resources to the project. A District-level TTIPS Support Team (TIP) has been appointed and will be led by the Assistant Superintendent for the District Turnaround Leadership Initiative. The TIP will also include the Deputy Superintendent, the Associate Superintendent for Human Resources, and the Associate Superintendent for Finance. Further support will be provided by the District Coordinator for School Improvement who has direct communication with the Superintendent and will address issues to ensure successful implementation. Additionally, the success of the project will be strengthened by the District resources the campus has to draw from. Project activities and plans will be shared by the SAISD Communication Department; fiscal oversight and management will be provided by the Financial Services Department; the Purchasing Department will coordinate equipment purchases and external provider oversight; and Data Services Department will ensure all pertinent and required data is collected. Additional supporting departments will provide assistance and support as needed for the duration of the project.

While the focus and concentration of the project will be on transforming Irving MS, SAISD will benefit from implementing the project as well. With 19 campuses designated as Improvement Required, this project will provide the District with first-hand knowledge in knowing which strategies are the most effective in transforming a school. The planned interventions will be monitored and assessed by an external evaluator to determine how they can be used to benefit other campuses within the district. Having the opportunity and resources needed to pilot the evaluation system will strengthen the district's capacity to expand and apply the evaluation system to all campuses district-wide. SAISD has methodically built the capacity to fully benefit from TTIPS funding. District assets have enabled SAISD to receive and maximize new federal and state funding through GEAR UP, the High School Graduation Initiative and TTIPS Cycles 1,2, and 3 all of which have contributed to improvement in student achievement.

Amendment # (for amendments only):

## Part 2: Student Demographics- Comments

Please use this section to add a description of any data about students that was not specifically requested, but is important to understanding the population to be served by this grant program.

Additionally, use this space to describe trends in data, related to students seen over time in areas that are important to understanding your program plan. Applicants must include supporting evidence to explain trends. For example, projected enrollment growth would need to be supported with a report of percent gains in enrollment over the past several years. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point. Irving Middle School's demographics are reflective of the District's demographics. The campus has a predominant Hispanic population accounting for 97% of its total population. Data shows that Hispanic student enrollment has remained the same but the associated English Language Learner (ELL) STAAR scores show this student group is very low-performing.

TTIPS funds will deliver support for teachers by providing Sheltered Instruction Observation Protocol professional development to all teachers. SIOP is a proven, effective model for delivering instruction to ELL students.

This high need -population coupled with an increase in the Eco-Dis population to 97.5% illustrates the high-need for additional resources with a TTIPS grant would provide.

### Schedule #13—Needs Assessment

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Continuous improvement is a systematic approach in school reform, including processes for data analysis, problem identification, root cause analysis, goal setting, intervention design, implementation, monitoring, and evidenced-based progress reporting.

Part 1: Process Description. Describe the process and activities in which you engaged to conduct a data analysis and needs assessment; and select the model, goals, and interventions to be implemented under this grant. In the description, include the team members involved in the planning process, frequency and timeline of planning meetings, and key activities/strategies used to facilitate decision making.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The first step in the needs assessment process is an annual Comprehensive Needs Assessment (CNA) conducted by the campus. The CNA is the centerpiece of SAISD's educational planning process and the driving force for the District Improvement Plan and the Texas Accountability Intervention System (TAIS) School Improvement Plan.

The process begins with appointment of a planning team composed of educators, parents, community members and business leaders from the school's attendance zone. With their input and oversight, school staff conduct a data-driven CNA using a standardized process aligned to the Texas Accountability Intervention System and the requirements of the Elementary and Secondary Education Act and No Child Left Behind. The CNA examines multiple data sets and sources to create demographic and student achievement profiles, identify strengths and weaknesses, prioritize needs, and direct programs and funding. The results also provide benchmarks school leaders can use throughout the year to monitor the impact of programs, instruction and resources on student achievement. Problems surfaced in the CNA must be fully addressed in the TAIS School Improvement Plan and are used to justify budget projections. Issues common to multiple campuses are examined and addressed in the District Improvement Plan. SAISD's standardized CNA process consists of four stages, described below:

**Stage I:** Planning (New CNA) - Before the CNA begins, campus staff discuss what they want their campus to look like in terms of student success and how that vision differs from what currently exists. The purpose and outcomes for the CNA are reviewed and short and long-term timelines are established for the following focus areas: demographics, student achievement, district/school culture and climate, staff quality, recruitment and retention, curriculum, instruction and assessment, family and community involvement, school context and organization, and technology. Each committee receives data, information and reports relevant to their charge, as follows.

**Stage II: Reviewing (Existing CNA)**. Previously appointed committee members meet to review and analyze existing CNA from prior school year and compare findings to current data. Responses to focus area questions are completed or updated as needed. New or continuing needs are identified as well as strategies to close the achievement gap among student subgroups, ensuring that every student receives a quality education.

Stage III: Completing the Executive Summary. An Executive Summary is written for each focus area and includes: responses to focus area questions; disaggregated data by grade level, classroom and/or subgroup; and patterns, trends, strengths and needs identified from the data. All summaries and priorities are combined into a master Executive Summary for the campus. The master Summary also includes comparisons of baseline assessment data and current data by focus area.

Stage IV: CNA Completed. SAISD's CNA process prioritizes the TAIS Critical Success Factors.

#### Problem statements identified in the CNA process are as follows:

- 1. Only 36% of 8th grade students at Irving Academy mastered the Social Studies STAAR Assessment.
- 2. Only 37% of 7th grade students at Irving Academy mastered the Writing STAAR assessment.
- 3. Irving Academy, ranked 14th out of 14 middle schools with an attendance rate of 93%.
- 4. Irving Academy had 833 Unique Count of Incidents with 51 DAEP placements which resulted in 2,372 instructional days needs.

#### Root causes of the problem statements are as follows:

- Lack of instructional support for campus and for teachers and/or substitutes new to the content area.
- No action plan and structure for the writing process.
- Lack of teacher accountability monitoring attendance and lack of teacher empathy towards students.
- Inconsistent and low teacher expectations of the district code of conduct.

For TEA	Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

Developing and increasing teacher and school leader effectiveness through content specialists delivering job-embedded professional development addresses the root cause of lack of instructional support for campus and for teachers new to the content area. The content specialists will ensure the planning time for each teacher is targeted and structured which will address the root causes of no action plan for the writing process. Increasing learning time by implementing a "zero-hour" will give teachers the time needed to implement strategies developed by content specialists.

Delivering comprehensive instructional reform strategies by promoting the continuous use of student data addresses the identified root cause of lack of teacher accountability monitoring attendance. By monitoring the attendance records, school personnel can make informed decisions and develop strategies for increasing attendance. Reviewing data during collaborative planning sessions will keep all teachers aware of class times or subjects where attendance is lowest.

Additionally creating a community-oriented school by engaging parents will address the root cause of inconsistent and low teacher expectations of the district code of conduct. Having families and students meeting with teachers and addressing behavioral issues will reduce disruptive behaviors escalating. Parent and school staff will work collaboratively to identify and address issues contributing to a student's behavioral issues. Furthermore, providing operational flexibility and sustained support by giving the school flexibility in staffing will provide the campus with content specialists, technology specialists, and a fine arts teacher to offer teachers support above and beyond what is traditionally offered.

The Transformation Model has the greatest potential for addressing the needs and root causes of Irving. The model provides a framework of interventions which will create lasting, sustainable change for the campus.

Amendment # (for amendments only):

Part 4: Model Selection-Stakeholder Input. Please describe how student families and community members were engaged in the needs assessment and planning process:

- Describe specific actions the campus/district took to solicit input from these stakeholders in selecting the model.
- Describe how this input was taken into consideration when selecting the model.
- Describe plans to meaningfully engage families and the community in the implementation of the selected model on an ongoing basis.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Irving MS was required to host a meeting for parents and community members to communicate the campus rating of "Improvement Required" under the State of Texas' Accountability Rating System at the beginning of the 2014-2015 school year. During the meeting, the state of the campus was discussed, parents' input was solicited regarding desired change, and plans for improving the campus were discussed. While the meeting did not specifically outline the TTIPS Transformation model, the information gathered from the meeting along with the Campus Needs Assessment formed the basis for the TTIPS project.

Ongoing engagement of Irving families and the surrounding community in implementing this model include the inclusion of parents and community members in the Campus Leadership Team (CLT). The CLT is a campus-level committee comprised of the campus principal, district personnel, parents, and community stakeholders who serve in an advisory role in terms of budgeting, planning, staffing, and curriculum. The implementation of the TTIPS project will be systematically monitored throughout the year by the CLT to ensure the project is implemented with parent and community input. Strategies to integrate and engage the community throughout the project's implementation include the following:

- <u>Community collaboration</u> Irving will offer Adult Education classes to parents and families. This will
  encourage parent participation on campus and Irving will make technology available to parents during class.
- <u>Engagement</u> Irving's locally-funded Parent Family Liaison's (PFL) will develop strong engagement with students, teachers, parents and care givers, support staff, and community and business groups. The PFL will be the first point of contact for parents and will be a welcoming, receptive liaison for parents and administration.
- <u>Active participation</u> Parents will be invited and recruited to form a volunteer group at Irving. The volunteers
  will be actively involved in assisting the teachers to set up classrooms and clerical work. Additionally, volunteers
  will be recognized for their participation through announcements in newsletters and the campus' website.
- <u>Communication</u> Having various avenues for parents and families to communicate with the campus' leadership and staff forms the foundation to maintaining partnerships. Accordingly, Irving will host Parent Content Nights to provide training opportunities on tracking their child's progress.

Having strong family and parent engagement on campus is a goal Irving MS has historically worked towards as evidenced by the locally-funded Parent/ Family Liaison position and the inclusion of parents on the CLT. Additionally, the Campus Needs Assessment is developed by the CLT, ensuring parents input is systematically included in all campus decisions. The implementation and success of the TTIPS project will be performed with the continuous input of parents and community members.

Amendment # (for amendments only):

Part 1: Staff Role and Qualifications. List campus and district personnel projected to be involved in the implementation and delivery of the program. Include all positions funded in whole or part by grant resources, along with those personnel involved in the implementation, but not funded through the grant. Provide a brief description of the position role/function in the grant; and desired qualifications, type and years of experience, and requested certifications. Ensure that the list and descriptions demonstrate the district will provide effective oversight and support for implementation of the selected model. Response is limited to space provided front side only. Use Arial font, no smaller than 10 point

#	Title	Role/Function in Grant	Desired Qualifications, Experience, Certifications	
1.	Assistant Superintendent for the District Turnaround Leadership Initiative	Will direct and manage the overall implementation of TTIPS within SAISD, including direct supervision of the DCSI.	Requires demonstrated instructional leadership, Master's degree and Texas Standard Principal or Mid-Management Certification.	
2.	District Coordinator of School Improvement (DCSI)	The DCSI will lead the SAISD TTIPS Support Team of highly qualified personnel charged with enacting meaningful school reform throughout the District.	The DCIS has demonstrated expertise in planning, managing and implementing school reform efforts and successful leadership and management experience.	
3.	Assistant Superintendent School Leadership	Will provide leadership to Irving MS in areas related to instructional and operational needs	Requires a Master's Degree, Mid- Management, Administrator or Principal Certification, and demonstrated leadership skills.	
4.	Associate Superintendent Finance	Will supervise the financial administration of the TTIPS grant, including accounting, payroll, purchasing, and information technology and information services.	Requires an MBA and advanced technical knowledge of school finance, budgeting, accounting systems, and economics.	
5.	Associate Superintendent Human Resources	Will provide leadership for implementation of human resources activities needed to ensure effective recruitment, high quality staffing and retention of qualified personnel.	Requires a Master's degree and Mid Management Administrator or Administrator Certification.	
6.	Principal	Will implement TTIPS on campus. Will provide continuous professional development to teaching staff to ensure utilization of identified instructional strategies and other best practices.	Requires a bachelor's degree; Masters preferred. Requires a Texas Principal Certification.

## Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Part 2: External Provider Role and Qualifications. List all external provider contractors/consultants, selected by the district/campus, that are projected to be involved in the implementation and delivery of the program. Provide a brief description of the provider's unique function in the grant; and desired qualifications, experience, and requested certifications. Do not include contractors/consultants provided by the TTIPS SEA office (PSP, TCDSS or TEA staff). Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

#	Title	Role/Function in Grant	Desired Qualifications, Experience, Certifications
1.	Poverty Mindset Consultant	Provide professional development on teaching in a high-poverty demographic.	Requires consultant who has extensive experience in delivering professional development.
2.	Sheltered Instruction Observation Protocol (SIOP) Consultant	Provide direction and guidance to campus staff and leadership in implementing the SIOP Model.	Requires certified consultant and expert in SIOP and effective implementation practices.
3.	Local Writer and Author	Will deepen student interest and knowledge regarding local community, culture, and history.	Requires local author or writer to have developed locally themed works of art.
4.	Website Developer	Develop Irving's website to include social media integration, embedded English to Spanish translator, and homework tracking feature.	Requires experienced professional with a sufficient work history of producing websites for campuses.
5.	External Evaluator	Implement a comprehensive evaluation plan designed to assess all aspects of project activities. Cooperate with any technical assistance provided by the TEA and participate in any meetings suggested by the Agency to review project implementation and evaluation strategies.	Experience in comprehensive impact- assessments, utilization-focused and action- oriented evaluations. Strong familiarity with the educational context, issues addressed in this proposal, and has flexibility, credibility, and problem solving skills required of a highly effective external evaluator.
6.	Communities in School (CIS) Site Coordinator	Expand CIS program services to all grade levels. This position would provide social service support to at-risk and high need students.	Minimum Bachelors level degree in social service field; and 2-3 years experience in school-age students. Preferred Master's Level Degree.
7.	Digital Music Production Consultant	Develop curriculum and classroom layout for digital music production lab.	Requires professional with experience developing music production curriculum for Middle School students.

## Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Part 3: Commitment and Succession. Describe how the campus and district will ensure that all project participants remain committed to the project's success. Describe your succession management strategies and how this will enable the campus and district to deliver continuous high-quality programming when there are changes in key project personnel. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Communication and standard operating procedures (SOP) are two of the most important elements in a successful succession and commitment plan. The campus and district have procedures and strategies in place to ensure that vital information is shared between key project personnel and available in the event of a departure. The SOPs include both formal and informal communication sharing strategies that ensure everyone has a shared understanding of project goals, activities, and milestones. SAISD has a tiered, formal approach to gathering district and campus data/ needs and creating communication redundancies so information can be gathered at various points.

- District Improvement Plan Guides District staff in the improvement of student performance for all student groups in order to attain state standards in respect to student achievement indicators.
- Targeted Improvement Plan As an Improvement Required (IR) campus, the Campus Leadership Team (CLT) engages in the Texas Accountability Intervention System (TAIS) that results in a plan to address indexes.
- Campus Improvement Plan Guides campus staff in the improvement of student performance. Plan is
  developed, reviewed and revised each school year by the principal with the assistance of a campus-level
  committee comprised of administrative staff, teachers, parents, students, and business and community leaders.
- Comprehensive Needs Assessment As described in Schedule #13, the CNA is the centerpiece of the
  educational planning process and driving force for the CIP, TAIS, and DIP. Planning teams are comprised of
  educators, parents, community members and business and community leaders.

These plans and procedures are updated as "living" documents. They are available for <u>all</u> SAISD employees via a central Campus Operations Portal hosted on the District's intranet. These documents guarantee a change a leadership will be managed through the information available to remaining staff and incoming leaders. Additionally, through the implementation of a Professional Learning Community (PLC) on the campus communication between key stakeholders will occur less formally and organically. The PLC fosters collaborative learning among colleagues within a particular work environment or field. By implementing a PLC with fidelity, the principal shares leadership – and thus power and authority – through inviting staff input in decision making. There is also collective learning among staff and application of that learning to solutions that address students' needs.

In addition to the formal and informal communication sharing strategies listed above. Irving will launch a TTIPS Implementation Team (TIP) to ensure progress is being made by the campus towards project activities outlined in the grant narrative. While changes to key project personnel is something to be avoided, the impact will be mitigated by having a strong TTIPS Implementation Team where all members are knowledgeable about the project's history, goals, and intent. Information will be shared with new project personnel so there is little to no delay in project progress. To aid the TIP, the performance of the project will be tracked through an online Grant Management System. The system will create and categorize pertinent project activities and be a repository of documents. All project personnel, regardless of when they begin participation in the project will benefit from having the information readily available and transferable. Monitoring and checking progress throughout implementation will ensure problems, challenges, concerns are identified and addressed quickly and serve as a source of encouragement to teachers as they are reminded that changes are being made and that the school is progressing toward its vision. Additionally, during the pre-implementation phase of the project, all groups mentioned above will be involved in preparing the Implementation Readiness Portfolio to the TEA program office. An activity that will translate the vision into action.

Commitment to the Irving's TTIPS project will be accomplished by creating a practice of including key stakeholders (i.e. district and campus leadership, teachers, external providers, project evaluators, and families) in decision-making and project implementation. This will create a culture of active rather than passive stakeholder participation by continuously providing avenues for communication and soliciting input. Communication between all stakeholders will make sure the momentum generated upon award of the TTIPS grant is sustained and actively cultivated for the duration of the five years the project is transforming the campus.

Schadul	e #14Management Plan (cont	1

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Part 4: Sustainability. What elements of your proposed project are designed to significantly increase capacity or create a lasting change to campus culture and practices that shall be sustained after the grant period ends? How will the LEA provide continued funding and support to sustain the reform after the grant period ends? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The long-term sustainability of the TTIPS program is a high priority for SAISD. The project's focus is increasing campus leadership and teacher capacity through intensive job-embedded professional development and campus support. Additionally, implementing a Transformation Model requires altering the campus culture and refining practices that will maintain the improvements realized through the grant. Specific elements of the project intended to significantly increase capacity include:

- 1. The hiring of content specialists to provide coaching and observation for teachers. Beginning in Y2 and continuing through Y5, the content specialists will be building the content knowledge and instructional practices of Irving's teachers. Having strong, confident teachers on campus after the end of the project means the gains seen in the project will last beyond grant period. Teacher leaders will be developed by working with the content specialists during the implementation period. These teacher leaders would continue to work with existing teachers and new teachers in the future
- 2. Providing focused professional development based on the root causes identified in the CNA will give teachers the resources needed to serve different student populations in perpetuity. All external provider services will be delivered with a strategy for training the campus and/or district to be able to practice and assess these skills independently. Capacity building will take the form of a trainer-of-trainer model, annual "brush-up" trainings, and/or co-development of services with a site-based professional development design team.
- 3. Developing a professional learning community will create a culture of shared responsibility and accountability. Teachers and staff will not be operating in silos and individual wins will be accomplished through a team effort. The community will provide teachers with opportunities for learning and extending their learning. For example, through discussion with colleagues, teachers are more apt to reflect seriously about their practice. Other benefits include the moral support and the feeling of trust that encourages teachers to take risks and practice new skills and strategies.
- 4. Project evaluation will determine the success or failure of each planned intervention which is vital in determining which project elements need to be sustained upon the conclusion of the TTIPS grant period. The grant provides an opportunity for Irving to explore, test, and evaluate activities which could not take place if not for the addition of grant funds. External/internal providers will document for the school methodologies that were implemented as well as successes and lessons learned throughout the project.

In order to maintain the progress made under the TTIPS grant, SAISD will determine future funding of project elements based on the value each have on the changes that have been made. Essentially, the design of the project is intended to scale down upon the conclusion of the grant. The support of content specialists and their delivery of job-embedded professional development should have made a lasting impact the teachers will be able to sustain. However, in recognition that some elements of the project require follow-up and continued support, a scaled-down plan of project activities will be developed based on the results of the external evaluation.

Finally, SAISD is constantly developing and implementing plans to diversify funding to support the TTIPS elements. The District is confident in being able to increase programmatic sustainability through a combination of several strategies such as:

- Allocating and leveraging federal allocations
- Building and sustaining relationships with local foundations to foster private donations.
- Expanding and strengthening the campus' fundraising abilities.

SAISD believes that through robust fundraising, leveraging funding, and a measured project plan we will be able to sustain, expand, and scale the program to effectively serve Irving's students for the long-term

	For TEA	Use Only

exits low-performing status.

# Schedule #15—Project Evaluation

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Part 1: Establishing Performance Measures. Describe the processes used to establish challenging yet attainable performance measures that will result in substantially improved student achievement and the campus' ability to exit lowest-performing status. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point. The process used to establish performance measures is based on the proposed school accountability for 2017-2018 when schools and districts will be assigned a letter grade (84th Legislative session: HB 2804) and the recently created 5-year plan for the District implemented by the newly appointed Superintendent of Schools, Mr. Pedro Martinez. Under this

plan the District will redefine excellence by going beyond minimum State Requirements which would ensure the campus

The top goal is to increase the percent of campuses rated high performing by: (a) increasing performance/ growth in Reading and Math; (b) increasing the passing rate of prior year failers; and (c) increasing performance at the highest level on State assessments (Advanced Level III). Specifically, Irving will improve its current rating of "F" to a rating of "A-B" by 2018-2019 by increasing performance in Reading from 63% to 85% and Math from 62% to 85% and increasing the Advanced Level III passage rate in Reading from 5% to 25% and Math from 6% to 25%.

Additionally, the project will collect and report data pertaining to the following performance measures: (1) average scale scores on State assessments in reading/language arts and in mathematics disaggregated by subgroup; (2) teacher attendance rate; (3) student attendance rate; (4) student disciplinary referrals and placement; (5) number and percentage of students demonstrating chronic absenteeism; (6) types of on-going, job-embedded professional development for teachers and administrators; and (7) strategies to increase parent/community involvement.

Part 2: Data Collection. Describe the processes for collecting data at a detailed level to inform effectiveness of each intervention. Data at a detailed level would include examples such as: participation rates at the activity-level, dosage rates of an intervention per student, teacher practice observed rates at the targeted strategy-level, or academic outcome data at the activity-level per student. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Data collection will be an on-on-going task of the external evaluator. Qualitative and quantitative techniques will generate the data needed for the evaluation. These evaluative techniques and methods will include review of participant records, project evaluations of the training and technical assistance strategies, reviews of program documents and materials, observation of project activities and classroom applications of the new leadership skills and capacities of principals and assistant principals, and questionnaire and interview strategies. Data collection will occur through developed or acquired evaluation instruments to document participant perceptions of training and technical assistance activities and their own efficacy as the project progresses. The project will also collect, analyze and report data from the state of Texas accountability system - The Texas Academic Performance Report (TAPR). The TAPR integrates district accreditation status, campus ratings, and student data, including the new Texas Assessments of Academic Readiness (STAAR), which assesses student performance. Data from this system will be obtained via the state agency's website and integrated into the project evaluation system longitudinally. The evaluation plan also will include participatory strategies to assess the quality, effect and benefit of the project components. These strategies will include focus group interviews and structured and semi-structured individual interviews. At the participating schools site, key stakeholders will be interviewed to assess the effects of the project implementation on the students' educational outcomes and academic improvement. These interviews will allow for reflection on effective practices and how these practices can be sustained and extended to other settings.

### Schedule #15—Project Evaluation (cont.)

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Part 3: Assessing effectiveness of interventions. Describe the processes and staff responsible for assessing the effectiveness of program activities and interventions on an ongoing basis. How are problems with project delivery to be identified and corrected throughout the project?

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point

The Irving Middle School Transformation project will implement a comprehensive evaluation plan to assess program implementation, program impact, and program effectiveness. The evaluation which will be conducted by an independent third-party entity. The primary tasks of the evaluator will, but not be limited to: (1) collect and analyze data to determine the degree to which project objectives have been attained (summative evaluation); (2) provide a continuous flow of data back to district leadership staff, campus leadership staff, project staff, partnering agencies, and parents and community members (formative or process evaluation); (3) analyze data to determine the relationships between the type and intensity of service, the nature of the needs being addressed and the outcomes produced; and (4) identify the most effective practices that can be replicated in the transformation of schools.

The evaluation will focus on three major, interconnected components - (1) Implementation or the progress of the project in putting in place the activities approved in the grant application; (2) Impact or the effects of the project on persons and systems involved in or served by the project as it relates to quality instruction, student achievement and campus performance ratings; and (3) Effectiveness or the degree to which the different components and the project as a whole is successful in achieving its goals of increased student achievement through job-embedded professional development and support provided to campus administrators and teachers. San Antonio ISD and Irving Middle School provide assurance that they will participate in any evaluation of the grant conducted by the U.S. Department of Education, the Texas Education Agency, including their contractors.

Evaluation questions include: (1) Were project goals, objectives and benchmarks attained? (2) To what extent did the project provide high quality job-embedded professional development and leadership support to campus administrators and teachers that result in increased student achievement and other outcomes for students? (3) To what extent did the project establish a coordinated system of professional development and support for campus administrators and teachers and the inclusion of a student growth measure? (4) What lessons were learned about the transformation process and factors enhancing and/or limiting its success? and (5) To what extent did the project develop and disseminate information on effective strategies for transforming low-performing schools? Qualitative and quantitative techniques will be used in assessing program implementation and program outcomes.

Evaluation results will be reviewed every nine weeks by the TTIPS Support Team, including data related to student achievement indexed against teacher professional development activities. Areas of under-achievement will require a corrective action plan by the Principal, the components of which are expected to address refinements to instructional strategies and/or stepped up or more targeted professional development activities. By regularly reviewing impact on a short-cycle, problems will be quickly identified and professional development, new instructional tools or policy modifications can occur with equal speed, ensuring that unanticipated issues do not become barriers to planned outcomes. Building practice adjustment into operational processes will ensure that interventions are implemented fully and effectively and to maximum student benefit.

The external evaluator will provide formative evaluation feedback to district and campus leadership, project management, partners, and parents throughout the year. Program implementation and impact data will be tabulated, analyzed and summarized in an end-of-year report. This report will summarize the project's activities and results over the project period and will include information about the participants served, project staff, services provided and educational progress of students. In addition to assessing program implementation and impact on program participants, the document will incorporate recommendations for enhancing future replication. The final year evaluation report will summarize the project's activities and results over the course of the entire project period.

In August of each year, Irving Middle School will collect and report to the TEA data pertaining to the performance measures outlined in the Program Guidelines.

### Schedule #16—Responses to Statutory Requirements

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Statutory Requirement 1: Describe your rigorous review process used to select highest-quality and best-fit external providers for your project. Include processes to:

- Identify a reasonably sized pool of prospective external providers
- Assess level of experience in delivering the work
- Determine a history of prior success; consistent strong results in similar projects
- · Conduct a risk-assessment related to contracting
- · Execute final selection and procurement

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The SAISD Purchasing Department maintains a database of approved external providers by types of services offered. Types of external providers include regional service centers, colleges and universities, professional organizations, and private providers offering services on a variety of topics to meet teaching and learning needs. Periodically, the District will advertise for new external providers and interested parties are asked to complete a Request for Qualifications. Providers found to be of highest-quality are added to the approved list.

SAISD secures external providers to perform work only when it determines that the service is not available from within District resources. SAISD believes only Professional Services will be procured, i.e., Professional/Student Development Training. SAISD typically does not use a competitive bid process for Professional Services contracts of less than \$50,000 for a 12-month period; instead, a Request for Qualifications is issued and a qualified, high quality provider is selected from respondents. Standard process is as follows:

<u>Step One:</u> Insure independent contractor status of potential provider. District employees may only provide professional services in limited, defined circumstances.

<u>Step Two:</u> Determine the scope of service and budget parameters; conduct initial conversations to communicate your needs and determine which provider will best meet them; and evaluate the offers based on fee, quality, timeline, etc.

<u>Step Three:</u> Check references. Selection team members contact other schools or districts similar to their own that have worked with the provider. This step may involve a telephone call or visits by members of the selection team to the school for site visits and interviews. Competitive process requires at least three signed reference checks.

<u>Step Four:</u> Select the service provider with the highest indicators of competence and qualification to perform the services at a fair and reasonable price. Every effort is made to ensure the provider offers services that have the following characteristics (*Guide to Working with External Providers*, 2012, American Institutes for Research):

- Aligned with established goals Activities are aligned with goals that were established during the needs assessment.
- Long Term Services are offered as part of a long term strategy for improved student learning.
- Customized Providers approach is tailored to the schools unique circumstances and needs.
- Research Based Providers approach is grounded in research and backed by evidence from a neutral-party evaluation that it gets the desired results in similar circumstances.
- Capacity Building Services are delivered with a strategy for training the school or district to be able to
  practice and access the skills independently. Provider should have a plan for building capacity and evidence that
  it has accomplished this goal in the past.

Step Five: Obtain approval and execute contract. All contracts valued in an amount of \$50,000 or more will require approval by the SAISD Board. The Board may pose questions on the process used to select the service provider, the services to be received relative to the fee, the qualifications and competency of the service provider, and the availability of other service providers in the marketplace. Contracts under \$50,000 are reviewed and approved by the Financial Services Department.

#### Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Statutory Requirement 2: External Provider Oversight. Describe your rigorous and ongoing process to provide oversight to external providers to ensure their continued quality and success in meeting project deliverables. Include in the description:

- Proposed schedule to regularly review external provider performance
- Campus/district personnel responsible for oversight and management of providers
- Process/instruments used to measure and monitor success of providers
- Corrective actions or additional supports utilized to improve provider performance
- Criteria/sequence of actions to be taken to remove/replace a low performing provider

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

SAISD intends to use Amplifund Full Cycle for administering and monitoring external provider contracts and other grantrelated activities. Amplifund is an integrated software program that streamlines tracking functions by establishing a central hub for documentation and key data. Federal regulations are encompassed within the system to support compliance by internal and external sources. The system has unique customization features to enable non-recurring data capture and support adherence to contract terms. Automated reporting will keep responsible SAISD staff informed of contract performance and compliance issues on a rapid cycle.

**Maintain** ongoing communication to include regular check-ins and host coordination meetings to discuss progress and implementation concerns before they grow into full-scale problems. Ongoing communication also facilitates the sense of having a shared goal.

**Keep** a written record of communication between SAISD and providers. For example, providers may keep a log of when communication took place with campus or district staff, what was discussed, and what actions were taken as a result of the discussions. Such logs help prevent misunderstandings from turning into full-blown problems.

**Establish** mechanisms for staff members to ask questions about the provider as well as offering insight and suggestions for implementation on a regular basis throughout the project. For example, the school and providers will work together to design strategies for on-going feedback:

- · Immediate evaluations of training sessions or consulting visits
- Regular debriefings
- Time in regular staff meetings to discuss the staff's impressions of the provider's services
- Structured midyear reviews of progress

Create an evaluation plan. The external evaluator hired through the project will establish this plan for evaluating the provider's services which include two important categories of progress – medium-term benchmarks (annual targets for the project period) and process evaluation or implementation. The primary goal for the evaluation system is to foster an environment of continuous improvement. The evaluation of the success of the provider's services will be aligned with the wider system of accountability. Evaluation will be on-going and coupled with on-going communication which will ensure that implementation and outcomes are kept on track.

Parties will agree upfront on the grounds under which the parties might decide to end the partnership. Language for early termination is included in standard SAISD agreements. Final payments due to the provider will be calculated and handled by the Director of Purchasing.

When providers are performing services on school campuses, the Principal is responsible for ensuring the service provider performs in accordance with the approved contract. If performance issues arise, the Principal is to immediately contact the Director of Purchasing for guidance. The Principal must warrant the satisfactory completion of services prior to authorizing payment to the vendor.

### Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Statutory Requirement 4: Coordinated and Integrated Efforts. Describe any ongoing, existing efforts that are similar or related to the planned project. How will you coordinate efforts to maximize effectiveness of grant funds? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The TTIPS planned interventions will build upon, strengthen, and supplement existing efforts Irving is currently performing. The efforts include a combination of district-wide, campus-based, and community led initiatives. These activities will be coordinated with TTIPS-funded interventions in order to take full advantage of the extended funding for the duration of the project.

- SAISD applied to and was selected for participation in the <u>District Turnaround Leadership Initiative</u> (DTLI) administered by the Texas Education Agency in partnership with the Texas Comprehensive Center and the University of Virginia Partnership for Leaders in Education. The purpose of the DTLI is to enable districts to own the processes and develop the leadership necessary to swiftly and systematically diagnose, intervene, and provide ongoing support to low-performing campuses, thus rapidly and permanently improving the performance of the students. Principal Lanor Cantu was hired July 09, 2014 and is participating in the University of Virginia District Turnaround Program. The program provides Principal Price with regular feedback from both the SAISD Assistant Superintendent of UVA Schools and UVA program personnel and leadership professional development which increases leadership effectiveness and eliminates operational barriers to implementation.
- Irving uses Title 1 funding to supplement basic education programs such as leveraging funding to employ a reading teacher, a teacher to work with overage 8th graders, instructional specialist, and a parent/ family liaison.
- SAISD received a School Climate Transformation grant from the U.S. Department of Education to enhance the
  Positive Behavior and Intervention System at all campuses. The grant provides funds for student incentives,
  professional development, and provides intervention specialists from the UT-Health Science Center located in
  San Antonio. The overarching goal of improving the campus' climate and fostering a positive learning
  environment.
- SAISD was also the recipient of a Texas Literacy Initiative (TLI) grant which is meant to increase literacy in a
  specific feeder pattern which Irving is a part of. As part of the grant, the campus will receive coaching and
  technology including tablets and digital books which will coincide with Year 1 of the TTIPS project.

Ensuring coordination and alignment of all school reform initiatives (including TTIPS) and maintaining continuous buy-in by teachers and campus leaders will be the responsibility of TTIPS Implementation Team (TIP). During monthly meetings, the TIP will review data regarding student achievement using a rubric of TTIPS outcomes and improvement strategies. A continuous improvement framework will enable rapid problem identification and remediation such as instances when the campus' initiatives become conflicting rather than aligned.

The guiding principle of aligning campus initiatives will be the leveraging of resources to maximize results. The TIP members will be authorized by the Superintendent to make rapid cycle changes as needed to ensure all grants meet or exceed expectations and contract requirements.

#### Schedule #16—Responses to Statutory Requirements (cont.)

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

Statutory Requirement 7: Evaluation Systems for Teachers and Principals, accounting for student growth Applicants proposing a TRANSFORMATION, TEXAS STATE-DESIGN, or EARLY LEARNING model must use a rigorous, transparent, and equitable evaluation system that takes into account student growth as a significant factor. Please review the description of requirements of the evaluation systems under these models in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below.

Applicants not proposing a Transformation, Texas State-Design or Early Learning model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the data sources for student growth accounted for in the teacher and principal evaluation system. Include how student growth is weighted in evaluation:

Data sources used to track and measure student growth for the evaluation system include a combination of campus-based progress monitoring tools and State Accountability assessments. Progress monitoring tools include: Istation to track reading and writing, Fountas and Pinnell to track reading, Compass Learning to track Math, campus-based assessments to track all content areas, student portfolios to track yearto-year student growth, and Index 2 of the STAAR assessment. Student growth is weighted at 20% of the evaluation system.

Describe how the evaluation system design includes multiple observation-based assessments and ongoing collections of professional practice:

The evaluation system will include formal observations and informal walkthroughs to evaluate teachers' professional practice. The design includes one formal, scheduled observation comprised of a full-lesson observation and a pre/ post conference. Additionally, there is a formal, unannounced observation which also includes a fulllesson observation and a pre/post conference. Additionally, at least four informal observations using the walkthrough forms available in Eduphoria Appraise will be conducted for each teacher. The informal observations are then shared with the teacher and are used for a formative review process between the principal and teacher.

The evaluation system uses a teacher self-assessment as an ongoing process to promote and track goals and professional development. Teachers and appraisers agree on goals and a development plan to attain those goals and the teacher submits the plan in the fall. The teacher keeps the document living, tracking progress toward those goals, professional development undertaken to achieve the goals, and revisions to goals as the teachers context changes over the year.

Describe how the evaluation system was developed with teacher and principal involvement:

The evaluation system will be developed through collaborative teacher, principal, and district involvement. A framework of the new evaluation system will occur in Year 1 of the project through discussion/ meetings held on campus. Stakeholder input will be solicited and communication regarding the new evaluation system will be disseminated prior to full implementation.

Schedule #16—Responses to Stat	utory Requirements (cont.)
County-district number or vendor ID: 015907-049	Amendment # (for amendments only):
Statutory Requirement 8: Educator Reward and Removal	
Applicants proposing a TRANSFORMATION, TEXAS STATE-D	ESIGN, or EARLY LEARNING model must have

protocols to identify and reward school leaders, teachers, and other staff who have increased student achievement; and identify/remove those who have not improved their professional practice. Please review the description of requirements for educator reward and removal under these models in Schedule #2 Provisions and Assurances.

These applicants shall respond to the prompts in the table below.

Applicants not proposing a Transformation, Texas State-Design or Early Learning model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the rewards available for educators who have increased student achievement in implementing the model:

A reward system will be developed during the Planning Stage of the project. Preliminary plans include autonomous professional development in addition to the professional development the whole campus receives. Rewards will be given on a tiered basis where the greater student achievement and professional competency correlates with the level of professional development. Federal cost guidelines will be followed for out-of-state travel.

Describe protocols/interventions to support teachers who are struggling to improve professional practice:

Protocols and interventions are based on walkthroughs conducted by appraisers. If concerns are raised regarding quality of instruction, a Memorandum of Expectations outlining appraiser concerns and recommended strategies for improvement is issued to the teacher. A teacher's failure to follow the strategies, the teacher is placed on a professional growth plan and/ or further disciplinary action may take place. The memorandum may also be considered cumulative data when considering the teacher's annual performance appraisal. The professional growth plan includes the following steps:

- Goal Selection
- 2. Action Plan
- 3. Support/ Resources Needed
- 4. Evaluation Measures
- 5. Evidence of Successful Completion
- 6. Follow-up

Describe the criteria established for educator removal:

If based on the professional growth plan, the teacher still does not improve a Memorandum of Reprimand is issued which summarizes what the teacher did not complete in the professional growth plan. Failure to address issues outlined in the Reprimand and failure to implement suggested strategies will lead to the non-renewal of the contract. All terminations are subject to board approval.

## Schedule #17—Responses to TEA Program Requirements (cont.)

County-district number or vendor ID: 015907-049

Amendment # (for amendments only):

TEA Program Requirement 5: Interventions to meet Model Requirements and Timeline (cont.)

Critical Success Factors are the key research-based focus areas, aligned with the statutory requirements of this program, under which school improvement initiatives shall be planned. Research provides evidence that effort and investment in these focus areas is most impactful to achieve continuous school improvement.

List and briefly describe the interventions selected for implementation for this Critical Success Factor. Ensure that interventions selected fulfill all statutory requirements listed in the program assurances, and support Problem Statements and Root Causes identified through your needs assessment.

Additionally, indicate the period during the grant cycle in which the activities will be implemented.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Critical	Success
Factor:	

Increase Learning Time

Planned Intervention		Period for Implementation	
1.	Provide materials for after-school clubs which focus on performing arts and associated technology/ equipment. Irving is an in-district charter campus focused on the arts and research has shown that art enrichment activities improve Reading and Math skills.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year4 ⊠ Year5
2.	Offer a "zero-hour", where all students focus on academics one-hour prior to the beginning of the school day. This extended school day will provide student with enrichment activities and homework assistance. The "zero-hour" will be offered four times a week and will include one teacher per content area. Additionally, elective teachers will rotate throughout the week so that an elective is offered one day out of the week.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year 4 ⊠ Year 5
3.	Host Parent Content Nights which provide training opportunities to parents on iData portal (District's student management system), Istation, and other tools used to track their child's progress. Equipping parents with the resources needed to track their child's academic progress will help them prioritize how to help their child with homework.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year4 ⊠ Year5
4.	Institute a culture of students being responsible for their learning through goal setting based on data sheets and student led parent/teacher conferences where kids discuss data with parents and teachers.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year4 ⊠ Year5
5.	Analyze teachers' use of instructional time and target potential areas of change during collaborative learning time. This will occur during the coaching/ planning times and will be the responsibility of content specialists.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year 4 ⊠ Year 5
6.	Assess implementation and outcomes of after-school learning clubs, "zero-hour", Parent Content Nights, and teacher planning sessions through periodic evaluation to determine the extent to which the activities contributed to increased learning time	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year 4 ⊠ Year 5
7.	Hire a Fine Arts teacher to provide an additional elective focused on arts. The elective has not been determined but may include digital music production, dance, or theater. The additional elective will provide an engaging opportunity for students. Additionally, the campus will contract with a Digital Media Consultant to develop a Digital Music Production classroom and curriculum	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year4 ⊠ Year5

Fac	ctor:

Increase Parent/Community Engagement

Planned Intervention		Period for Implementation	
1.	Have a school-wide information and orientation session for parents/family to discuss transformation efforts for the year and discuss parents' role. Additionally, regular communication regarding the transformation process will be provided to parents at PTA meetings, newsletters, and through the campus' website in English and Spanish.	<ul><li>✓ Year 1</li><li>✓ Year 2</li><li>✓ Year 3</li></ul>	⊠ Year4 ⊠ Year5
2.	Contract with a consultant to develop a new interactive website which provides a clear communication platform and is fully integrated into social media mediums. The website will be optimized for mobile browsing which will allow parents to stay informed regarding campus activities, student homework assignments, and class schedules.	☐ Year 1 ☑ Year 2 ☐ Year 3	☐ Year 4 ☐ Year 5
3.	Offer Adult Education classes to parents and families. This will encourage parent participation on campus and Irving will make technology available to parents during classes.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year4 ⊠ Year5
4.	Host Parent Content Nights which provide training opportunities to parents on iData portal (District's student management system), Istation, and other tools used to track their child's progress. Equipping parents with the resources needed to track their child's academic progress will help them prioritize how to help their child with homework.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year4 ⊠ Year5
5.	Parents will be invited and recruited to form a volunteer group at Irving. The volunteers will be actively involved in assisting the teachers to set up classrooms and clerical work. Additionally, volunteers will be recognized for their participation through announcements in newsletters and the campus' website.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year 4 ⊠ Year 5
6,	Contract with local artists and writers to work with school clubs and deepen student interest and knowledge regarding associated subject matter. Topics will focus on community, culture, and local history.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year4 ⊠ Year5
7.	Host an annual Irving Academic Showcase and invite parents, district staff, and community leaders. The showcase will provide the students with an opportunity to illustrate the progress they have made in various activities learned in the informal learning clubs.	☐ Year 1 ☑ Year 2 ☑ Year 3	⊠ Year4 ⊠ Year5
